the first time.) Amendments to be printed to LB 1410 from Senator Chambers; new resolutions: (read LR 492-493 by title for the first time); and an amendment to LB 1361 from Senator Preister to be printed. That's all that I have. (Legislative Journal pages 1530-1533.)

SPEAKER KRISTENSEN: We're now back on debate on the adoption of the Bohlke amendment. Senator Bohlke, seeing no lights, you're recognized to close on your amendment.

SENATOR BOHLKE: Thank you, Mr. President and members. I do appreciate the questions that have been asked. I know we've spent a great deal of time and some people told me they were just anxious, let's just vote on it; but I think the questions have been very good in trying to clarify exactly what the amendment does. And I hope that you all feel comfortable by looking at the bullet sheet and the discussion. As I've said, last time on General File we did the Beutler amendments. With this really what we're changing is the idea that eventually the multitest will end up being four tests for schools to choose from. I think that's a positive step. I feel good about the work that's been done, and I would hope that you would adopt the amendment and we would move this on to Final Reading. Thank you.

SPEAKER KRISTENSEN: You've heard the closing. The question before the body is the adoption of the Bohlke amendment to LB 812. All those in favor vote aye; all those opposed vote nay. Have you all voted who care to? Please record.

ASSISTANT CLERK: 31 ayes, 0 nays on the adoption of Senator Bohlke's amendment, Mr. President.
